Welcome

Dear industry partners,

On behalf of the ESPD it is a great pleasure for me to Chair the Organising Committee of the 18th Annual Meeting of the European Society for Pediatric Dermatology (ESPD 2018), which will be held during 7-9 June 2018 in London, United Kingdom.

We have put together a high quality focussed meeting with worldwide expertise in both the chairs and speakers selected. The meeting will feature on two parallel sessions breaking for the six esteemed Keynote Lectures. Further details can be found in the programme section of this document.

The high quality of the meeting is again reflected in our choice of venue. The Queen Elizabeth II Conference Centre is uniquely situated in the shadow of Big Ben, Westminster Abbey and the London Eye. The welcome reception will take place at the conference centre and we hope to have you all in attendance.

London is a vibrant multicultural City, which I am sure many of you will have visited before. We would love to welcome you back and encourage you to take advantage of what this great city has to offer at a time when it is more affordable that it has been before.

All catering breaks will take place in the exhibition hall and allow you to interact with the anticipated 500 delegates. The compact nature of the venue will help with this interaction. Those sponsors booking a breakfast or lunch symposia will have the opportunity to provide food catering within the venue.

The sponsorship opportunities offer a range of packages to suit your budget and to maximise the return on your investment. We are extremely grateful for your considered support of this prestigious meeting. We are offering the packages at a limited number and would strongly encourage you to book early to avoid disappointment.

On behalf of the local organising committee and the ESPD we thank you for considering supporting the 18th Annual meeting of the European Society for Pediatric Dermatology.

Dr Veronica Kinsler
18th ESPD Annual Meeting President
Consultant Paediatric Dermatologist and Academic Lead Clinician, Great Ormond St Hospital for Children
Principal Investigator and Wellcome Trust Fellow, Genetics and Genomic Medicine, UCL Institute of Child Health, London
